

# Management Accounting Services

Working with companies to  
improve financial information

## The benefits of an experienced Management Accounts team without the full cost

FDYL are a firm of experienced **Finance Directors** and **Management Accountants** providing services to a wide range of companies across the North of England.

Whether your company is small or large, we tailor our service to meet its specific needs.

Our **Management Accounting team** work in your company to improve and develop your management accounting systems and information. This enables your company to be more efficient and make better decisions.

### As the owner or director of a business do you recognise any of these characteristics?

- Continually frustrated by the lack of management information to assist decision making?
- Regularly querying the validity of financial information provided?
- Making most decisions based on your gut feeling?
- Amazed how long it takes your finance department to respond?

### Operational Finance:

- Ensure Management Accounting Systems are reliable and robust
- Oversee the whole finance function
- Provide the key information needed to run your business
- Train and develop existing staff to their maximum potential

To assess whether we can  
add value to your business,  
allow us to carry out a  
**free financial diagnostic review.**
